RE: **United States Patent Application Serial No. 10/645,158**
Our File: 5-0117-017

Dear Mr. Harlick:

We have now received the first Office Action in the above identified case wherein all of the claims have been rejected. This is not an uncommon response by the Patent Office at this stage of the proceedings. A response to the Office Action is due on or before October 7, 2004. A response can be made after October 7, 2004, and up until January 7, 2005, however, after we pass the October 7, 2004, date you will incur additional government late filing fees and Petition fees. If a response is not made before January 7, 2005, your application will go abandoned.

The claims are rejected in view of the Lithwick and Academic Superstore references. Please review the Examiner's basis for the rejections and give me your written comments. The focus on your comments should be on the accuracy of the Examiner's statements and how your invention is distinguishable from the teachings in the reference patents.

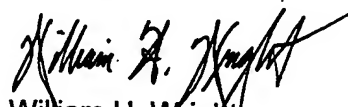

The alternative actions and estimated additional costs are as follows:

1. \$175 for review of the Official Action and this written correspondence.
2. Make no response to the Patent Office and allow the application to go abandoned. No additional charge.
3. Prepare an amendment to the Examiner's rejections. An additional \$975.
4. Prepare an amendment and schedule a personal interview with the Examiner. An additional \$1,350.

Upon a review of the file, my recommendation is alternative number 2 or 4. Our experience has been that the interview is well worth the additional expense.

We must have your decision by September 7, 2004. Upon receipt of your authorization and your retainer check in the appropriate amount, we will proceed. Please advise if you have any questions.

Sincerely,

William H. Wright
